Winter Dreams

JUST IN TIME FOR THE SEASON OF ENTERTAINING, French luxury label Lalique unveiled its latest collection, Paysage d'Hiver, at its flagship boutique here. More than 80 guests turned up for a closer look at the intricacies of the pieces in the collection. Particularly stunning were the Platinum Enamelled Vase and Tanega Amber Vase, which took craftsmen many hours of handwork and great skill to produce. As a treat, there was a Christmas table decoration demonstration by producer-decorator extraordinaire **AKEMI TOGUCHI**, whose tabletop designs have appeared in many popular publications.

Colourful Dials

THE ASIAN PREMIERE OF **VERTU'S** LATEST Constellation smartphone series in Singapore was a riot of vibrant sights and sounds – not unlike the new phone itself, which was unveiled in five new hues. Held at The White Rabbit, the launch event saw guests treated to an intriguing dance performance as they sampled champagne and canapes. **HUTCH HUTCHISON**, Vertu's head of concept creation and design, shared the creative inspiration behind Constellation's design, as well as new features that consumers can look forward to.
